**PURPOSE:** To create an atmosphere conducive to a speedy recovery and maintain a safe and secure facility.

**OBJECTIVES:** Establish visiting rules compliant with § 482.13 CMS Condition of Participation:  
Patient's Rights.

Establish control over the entrances to the building by locking schedule.

### I. GENERAL VISITING RULES

- A. Each patient, or his or her representative where appropriate, has the right, subject to his or her consent, to receive the visitors whom he or she designates, whether a spouse, a domestic partner (including a same-sex domestic partner), another family member, or a friend, and the right to withdraw or deny such consent at any time unless clinically necessary or reasonable restriction or limitation needs to be placed on such rights.
1. Potential reasons for restricting or limiting visitors:
    - a. Any court order limiting or restraining contact;
    - b. Behavior presenting a direct risk or threat to the patient, hospital staff, or others in the immediate environment;
    - c. Behavior disruptive of the functioning of the patient care unit;
    - d. Patient's risk of infection by the visitor;
    - e. Visitor's risk of infection by the patient;
    - f. Extraordinary protections because of a pandemic or infectious disease outbreak;
    - g. Substance abuse treatment protocols requiring restricted visitation;
    - h. Patient's need for privacy or rest;
    - i. Need for privacy or rest by another individual in the patient's shared room.
- B. Children under age 12 must be accompanied by a responsible adult and may visit immediate family members only (sisters, brothers, parents, grandparents). The adult is responsible for the child's behavior. **Visiting children are not permitted to stay overnight in patient rooms.**
- C. Children under age 12 are not allowed to visit on the Intensive Care Unit except with permission of the physician and should remain in the main lobby until that visiting time occurs.
