PHYSICIAN DIRECTORY

A directory of RMC & RHMC employed physicians, CRNPs, departments & outside referring physicians

A Note From The CEO

othing is more rewarding than being known as a leader in your community. At RMC, we are committed to delivering not only the most superior healthcare in our region, but also the most choices, treatment options and advanced care that our patients can access without leaving the comfort of their own community.

As one of the largest employers in the region, we take pride in our role as a leading health care provider and community partner. Our goal is to remain transparent in all we do as a healthcare system and look forward to continuing an open dialogue as we embark on new and exciting improvements at our hospitals in the coming months and years.

We are very open to hearing feedback from you, whether positive or negative, to ensure that we continue to be your healthcare provider of choice in Northeast Alabama.

We appreciate your commitment to RMC. Each member of the RMC team stands proud to be named your preferred healthcare leader in northeast Alabama.

> At your service, **Louis Bass** President and CEO, RMC

Meet The Board Of Directors

s a not-for-profit, community hospital, RMC is governed by a volunteer Board of Directors whose charge is to guide the future and direction of our health system. The RMC Board of Directors are appointed by the Anniston City Council, Jacksonville City Council, Oxford City Council and the Calhoun County Commission. RMC's Chief of Staff and Vice Chief of Staff are appointed by the RMC Medical Staff. The City of Anniston appoints seven and the other governing bodies appoint two members

each. RMC Board membership is a volunteer, uncompensated role. Each member donates countless hours of time and service. These business professionals and physicians come together with their unique business acumen and expertise to collectively act in the best interest of RMC and all those we serve. They not only represent a cross-section of the geography, but also a diverse set of business backgrounds that help guide and direct the business of running a hospital and health care system.

The Health Care Authority of the City of Anniston (RMC) is the premier regional health care provider for a five-county service area in northeast Alabama. With a total of 338 inpatient beds located at its Northeast Alabama Regional Medical Center campus, 125 beds at its Stringfellow campus, and numerous outpatient facilities, urgent care and specialty clinics, RMC is the region's leading provider of choice for more than 13,500 inpatients, 57,000 outpatients, 1,800 newborn deliveries and 42,000 emergency room visits each year.

We have a long, strong history of serving the local communities, including not only the city of Anniston, but also residents of Oxford, Jacksonville and the expanse of Calhoun County and surrounding areas. More than 2,000 employees, 300 volunteers and over 200 physicians, who represent a full range of medical specialties, including: cardiac, women's, orthopedics, oncology and emergency services, provide state-of-the-art healthcare to our patients with integrity, skill and compassion.

As a community-based, not-for-profit health system, RMC provides unwavering commitment by each member of our health care team to deliver the highest-quality medical care with special attention given to the individual needs of each patient. RMC maintains a sharp focus on attracting and recruiting the right people — skilled and compassionate clinical and support staff members who advance our mission and pursue our vision of remaining the region's premier choice for health care.

With over a dozen primary care and specialty medical clinics located in surrounding communities, including Jackson-ville, Oxford, Roanoke, and Anniston, we are committed to bringing quality health care to you, close to home, making your health care more convenient and accessible.

Trust your care to the experts and expertise at RMC. It's the Right Care. Right Here.

REGIONAL MEDICAL CENTER FOUNDATION

ounded in the late 1970's by a concerned group of citizens, the RMC Medical Center Memorial Foundation was created to support RMC in pursuit of its vision of providing superior quality health care services for the community and residents of northeast Alabama. Today, the RMC Foundation remains an active and essential support organization for the RMC Health System in fulfilling the need for additional medical services and facilities.

As one of the region's largest not-for-profit health systems, the RMC Health System reinvests hospital earnings back into our local communities through improved access to expanded health care services, state-of-the-art technologies and recruitment of top talent as one of the area's largest employers. Through the generosity of our donors and the support of area businesses, the RMC Foundation is making a significant impact.

Making a cash gift is one of the easiest ways to give to RMC Foundation. Because cash gifts are tax deductible, we will give you a letter of acknowledgement of your gift that you can use for your tax records, and 100% of your gift goes directly to the RMC Foundation project that you designate.

RMC orthopaedic & joint center

Orthopedic care at RMC's Orthopaedic and Joint Center is focused on restoring functionality and quality of life for our patients. Our top-of-the-line orthopedic care center caters to all things related to bone health—from broken bones that require complex surgeries to assisting with damaged muscles vital to movement.

SERVICES

RMC boasts an outstanding team of orthopedic surgeons and diagnostic equipment, making the entire process—from diagnosis through treatment and rehabilitation—easier on you.

Diagnostics

Surgery

- Joint replacement
- Arthroscopic surgery
- Hand and wrist surgery
- Foot and ankle surgery
- Arthritis care
- Pediatric orthopedics

After Care

Sports Medicine

Robotic Joint Replacement Surgery

At RMC, we utilize Mako Robotic-Arm Assisted Technology for personalized surgical solutions. The system uses CT scans of your joints to produce a 3D model. Your orthopedic surgeon will work alongside Mako technology to customize and plan your joint replacement procedure.

Comprehensive Bariatrics Center

At RMC Health System, we understand how challenging weight loss can be. In Alabama, more than a third of residents are considered obese. In Calhoun County alone, almost 40 percent of residents are considered obese and that percentage increases year after year.

We know it's never too late to take control. RMC Health System's Stringfellow Memorial Hospital campus is a Comprehensive Bariatrics Center accredited by the MBSAQIP, as well as a BlueCross BlueShield of Alabama Designated Blue Distinction Center for Bariatric Surgery, that offers proven solutions and compassionate support when traditional options haven't worked. Like other men and women we have helped, we are here to help you enjoy your own life-changing success.

Surgical robotics for minimally invasive surgery

The da Vinci surgical system gives our surgeons an advanced set of instruments to use in performing robotic-assisted minimally invasive surgery. Your surgeon performs surgery with da Vinci by using instruments that he or she guides via a console. The da Vinci system translates your surgeon's hand movements at the console in real time, bending and rotating the instruments while performing the procedure. The da Vinci vision system also delivers highly magnified, 3D high-definition views of the surgical area. The instrument size makes it possible for surgeons to operate through one or a few small incisions.

Information for Referring Physicians

An industry-leading Breast MRI system, Phillips
DynaCad Breast, has arrived at the Tyler Center at
RMC. Paired with our newest 3T MRI and Sentinelle 16
Channel Breast Coil, you'll get high resolution images and
high-speed processing every time.

Schedule your patient's scan today to experience:

Enhanced Efficiency

Enhanced imaging workflow provides a large, flexible workspace with custom hanging protocols, viewing capabilities, and configurable work lists for easy study management.

MRI Guided Biopsy

Our system provides visual guidance for planning of breast biopsy procedures from the initial setup of equipment to the confirmation of targets.

Schedule today by calling 256-235-5169
